

DUBLIN, September 27.

THE following Exhortation has been read in all the Parish Churches throughout this City and Suburbs: "The School of History is a mirror of late by the furious and blood-thirsty Robbers of this City and Liberties, most ill every humane Breast with the deepest Abhorrence and Detestation. It is indeed scarce to be hoped from any Means, or of ours to reclaim a Set of untractable Malignants, who by doing his Deeds to both Divine and Civil Laws! Yet, our earnest Desire to contribute, as far as in us lies, to the Restoration of the public Tranquillity, makes us give you this repeated Notice, that there is no Parliament in our Power which we shall meet, with the utmost Severity, unless, upon any of our Communion, whom we shall find concerned in the late or any future Disturbances. As their Proceedings from infernal to the Interest of their Country, by discouraging Industry, destroying in Commerce, empering the mildness of Government, and wantonly taking away each others Lives, we can only desire to their health Rectifying that before the ecclesiastical Censures which they have already incurred by their open Threats of Revenge and Murder, we shall denounce on them from our Altars, we shall forbid them our Churches, and separate them from the Communion of the Faithful, being the most dreadful Punishment this the Church of God can inflict."

There is now rising at Abbot's Town, in the County of Dublin, a small Field of Wheat, belonging to Frederick Fulker, Esq; most of the Stalks of which measure in Length, from the Root to the Top of the Ear, seven Feet, and some few of the Stalks measure upwards of Nine Feet.

Exhibit, Sept. 22. On the 7th Inst. a Horse, called the King William, Jack Thede, Master, from Virginia, struck on a Rock called Bullman, and filled with Water; he got off the 12th Inst. and got into Kinfa, with two Pumpkins. He had 225 Bushels of Tobacco, Sweet, &c. on board. The Tobacco is almost ruined; but the Ship and the Rack of the Cargo will be saved.

L O N D O N, October 23.

The King of Prussia (says an authentic private Letter from Warsaw) has written a complimentary Letter to the new Marquis with his own Hand; in which (for his Majesty has shown to several foreign Ministers) in this remarkable Expression: Your Majesty must reflect, that as you enjoy a Crown by Election, and not by Descent, the World will be more obedient to your Majesty's Action than any other Potentate in Europe, and it is but reasonable. The latter being the more Effect of Consequence, no more is looked for (the more now is to be wished) from him, than what Men are endowed with in common. But from a Man united by the Voice of his Equals to a Subject to a King, from a Man voluntarily elected to Reign over those by whom he was chosen, every Thing is expected that can possibly defend and secure a Crown. Gratitude to his People is the first great Duty of such a Monarch, so that since (under Providence) he is indebted that he is one. A King who is so by Birth, if he acts despotically in his Station, is a Slave only on himself; but an elected one, who behaves inconsiderately with his Dignity, reflects Dishonour also on his Subjects. Your Majesty, I am sure, will pardon this Warmth. The amiable Part of the Picture, is not so much a Lesson of what you ought to be, as a Prophecy of what your Majesty will be."

Letters from Amsterdam advise, that great Quantities of Artillery, written Stores and Ammunition, are now buying up in that City, and direct Parts of Holland, on Account of the King of Prussia.

On the 23d. Letters from Newmarket say, that his Royal Highness the Duke of Cumberland was to well recovered, that he was expected to make his Appearance on the Courts at the present Meeting.

It is now said that 200,000 l. is depending on the great Match, which is to be Run at Newmarket to-morrow, between the Duke's King Horse, and the Duke of Grafton's Antonio.

On the 26th. By recent Letters from Jamaica, it appears that for some Months the Spaniards have been employed in augmenting the Fortification of St. Jago de Cuba, in the West India.

The Courts of France and Spain, it is said, have influenced to get Ministry, that they cannot help taking Unhedge as the naval Preparations making in our Ports at this Time. To which Reply has been made, that the Idea of War being not so important only for the Protection of our Possessions, and not to make the last Innovation on the Rights and Property of any Nation whatever.

The Holland's Bay Company have agreed towards the Station at the Guinea-Trade, the following Sum, 12,200 Bows; 552 Mules; 2000 Ours; 200 Pigs; 250 Walrus; 252 Bows; 1155 Muskadoes; 54 Mules; 43 Calicoes; 42 Badgers; 207 Cats; 21 Ravens; 65,000 Quills; and 275 lb. Cassowary.

It is said, that a new Bill will be brought in next Parliament for regulating the Paper Currency in Britain.

Condemned, this 20. last Week the following odd Affairs happened: A Servant Maid, who lived at a Public House at Swanton in this County, having married a Man to a Joint at Waltham, he procured a License, and returned to Swanton on Friday Morning last, in order to celebrate the Nuptials; the Girl accordingly made Preparations for the Ceremony, putting on her Church, &c. but just as she was going to Church, her Master, unwilling to lose a good Servant, called her home his Parson, telling her, he had rather she would stay with him; and that he would prevent her being Disfranchised of her Husband, he would marry her himself. The Girl instantly complied, and told her Clerk, &c. to the great Satisfaction of the poor Joiner, who had imagined himself upon the verge of Marriage. The Girl and her Master were married the next Day.

WEST-INDIA INTELLIGENCE.

From the Grande Gazette.

Port-Royal, Oct. 3. On Wednesday last, about Eleven a'Clock at Night, a most terrible Fire broke out in the Windward-most House in the Town of Santenay, which burst with great Force, and continued till Twelve other Houses were entirely destroyed. About 12 o'Clock the Troops under the Command of Capt. Orme and Lieut. Pripper, came to the Assistance of the Inhabitants; and by the Activity and Conduct of these Gentlemen in particular, the Fire was got under much sooner than could otherwise have been expected. Various are the Opinions on account of this Disaster, but the most general is, that it was purposely set on Fire by the People belonging to a French Flag of Trade then lying in the Harbour.

PORT-ROYAL (in Jamaica) October 22. Came in the King-Bird, a Ship belonging to Rhode-Island; she was taken by a French Guard-in-Costs, and put under the Command of a French Officer, to be delivered to our Governor. A French Officer, the Chevalier d'Arrey, came in her for that Purpose.

Oct. 15. Last Monday Night as the Pilot Boat belonging to Port-Royal, was lying at an Anchor at a Place called the Tolly, near the East End of this Island, a small Schooner Boat came along side and boarded her; there were 4 Negroes in the Pilot-Boat, but only one awake, whom they soon secured; after which they went off in the Pilot-Boat, and left their own behind. These Pirates were 4 in Number, 2 Frenchmen, 2 Mulattoes, and a Negro, the Mulattoes were Natives of Antigua, one of them well known at Port-Royal, and has sailed out of this Place; his Name is Joseph Thomas. They were armed with Muskets, and captured also another Pilot-Boat that is out, and said they were going to Cuba; they permitted one of the Pilot Negroes (who signified a Disinclination to go with them) to go ashore in a Canoe, who gives this Account of them.

We hear the Druid Ship of War, commanded by Capt. Borsady, left this Morning in Search of those Pirates, and to cruise for the Protection of the Trade going through the Windward Passage; as it is very probable they may attempt to surprise some Vessel under Pretence of being the Pilot-Boat.

A Schooner with a Lieutenant and upwards of 20 Men, from the Squadron, was to sail last Night in Quest of them, and to call at every Place on the Island of Cuba, where there may be a Probability of finding them.

Oct. 26. Monday last arrived his Majesty's Ship Venus. And this Morning came in the Alarm, with the Swift Schooner under Jury Masts. The latter was met by the Venus at Sea, and towed by her and the Alarm to this Place. It is said so of the Swift's Crew are lost.

CHARLES-TOWN (South-Carolina) November 18. Extract of a Letter from Pensacola, October 22, 1764.

His Excellency George Johnston, Esq; Governor of this Province (West-Florida) arrived here Yesterday in about 3 Weeks from Jamaica. Our Governor's Pleasures will give a new Turn to Affairs; the Stop of finding every or joining certain Rights with only Cash as found in regarded as highly impolitic, and which we are assured will not happen in future. Sir John Lincolne, the commanding Officer of his Majesty's Ship on this Station, who now resides in this Province, is a Man of singular Knowledge, and the Situation of the Place for Commerce, is such, that few other Places can boast of it. Bricklayers, Carpenters, Gardeners and Plasterers, are much wanted, in all the Shop for Bread, Bricks and Materials for Building. The Appearance of the Country is much superior to the partial Representation of People who were left acquainted with it, thus disguised with their own Situation.

Dec. 7. The Governor of New-Orleans has issued a Proclamation, by Order of his Master the French King, notifying that the Island and City of New-Orleans, &c. are ceded to his Most Catholic Majesty. So that now we may congratulate the true Friends of their Country on the Expedition of the French from all North-America.

PHILADELPHIA, January 22.

The Brig Lytle, Capt. Callender, from Lisbon, &c. and for this Port, after driving about four Days in the Ice in our Bay, was forced ashore on Duck's Bay, where she was left full of Water on Wednesday the fourth Instant. Five of the People, in the Long-boat, reached the Shore, much distressed, at the Mouth of Duck's Creek. Capt. Callender, James Connor Esq; an Indian Boy Pilot, and two Sailors, got off from the Brig in the Yawl, soon after the Long-boat, but meeting with much Difficulty from the Ice near the Shore, were soon to get back for the Vessel.

The Brig-Monmouth, Capt. Bland, from St. Michael's in Jamaica, was driven on Sunday, the 20th inst. in the lower Part of Duck's Bay, and was left by the Captain and People the Wednesday following, expecting the great Quantity of Ice would have cut her off from the Bay that Night; but it is thought she drove off with the high Tide on Friday Night, and has not been heard of since.

ANNAPOLIS, January 24.

Our Communication with the Western-Shore is yet prevented by the Ice.

We are informed, that the SMALL-POX prevails pretty much in the Neighbourhood of Pocomoke in Prince-George's County, and has proved Fatal to many. One Mr. Marrow, in the height of that Distemper, being much out of his Senses, unhappily escap'd his Nurse, got away from the House, and was afterwards found Dead in the Roadside, Frost in among the Ice.

Hence it may not be improper to insert the following

Extract of a Letter, Lord Bolton, July 20, 1764.

"The Small-Pox has now gone through this Town: About Five Thousand have been inoculated, and Forty-three only died, which is One in One Hundred and Sixty: Seven Hundred have had it in the Natural Way, and One Hundred and Twenty-six have died; which turns out about One in Five: So that you see the vast Disposition in Favour of Inoculation as to the Chance for Life, which I think should silence all Objections against the Practice."

The following RECEIPT (from a Northern Paper) may be of great Service, as it is said to be an infallible Cure for those who may have the Misfortune to be ERUPTIVE, BISTERN, and that may have been Relieved by it.

"Take the FAT of a DUNGHILL-FOWL, and Rub the Place on which is affected with it; Massage and Bathe, over a warm Fire; at the same Time, wrapping a Piece of Woolen Cloth, wetted with the same Fat, round the affected Part. In two or three Days they will feel no Pain, and in five or six be quite cured."
